

Arizona Report of Public Agency Performance on School-Aged Placements

Indicator 5: School-Aged Placements

Percent of children with IEPs aged 6–21 who were:

- A. Inside the regular class 80% or more of the day;
- B. Inside the regular class less than 40% of the day; and
- C. In separate schools, residential facilities, or homebound/hospital placements.

Measurement

ADE/ESS extracts the data from SAIS using the service codes entered for students with IEPs by the public education agency (PEA) for the October 1 federal child count.

Explanation of Indicator

This indicator provides information about the extent to which PEAs include students with IEPs in the general education learning environment. PEAs are required to offer a continuum of service options to meet the unique needs of each student; however, they are also required to educate students in the general education classroom to the maximum extent appropriate for each student.

Measurement A refers to students who spend all (or almost all) of their day in a regular classroom and is generally considered to be the least restrictive environment. Measurement B refers to students who spend all (or almost all) of their day in a self-contained classroom on a regular school campus and is generally considered to be a moderately restrictive environment. Measurement C refers to students who spend all of their day in a facility that is isolated from a regular school campus. These placements are generally considered to be highly restrictive environments.

In most instances, the percentages will not total 100% because the placement category known as “resource” is not reported in these data.

A PEA is listed with an asterisk (*) when:

- The PEA had fewer than 10 students with disabilities enrolled on October 1, 2008; or
- The PEA had fewer than 10 students with disabilities in a specific placement on October 1, 2008.

In these instances, the data are not reported to ensure confidentiality.

The data are from school year 2008–2009.

State Target:

- 5A: $\geq 52\%$
- 5B: $\leq 15.5\%$
- 5C: $\leq 2.1\%$

State Results:

- 5A: 56.7%
- 5B: 14.9%
- 5C: 2.7%
